

Newsday Names Picciano & Scahill A Top LI Workplace for 2019

September 4, 2019 – Bethpage, NY - Picciano & Scahill, P.C., a well-respected and recognized leader in New York trial law and insurance defense litigation is proud to announce that the Firm has been named a Top LI Workplace for 2019 by Newsday.

Newsday's second annual Top Long Island Workplaces 2019 rankings have identified Picciano & Scahill as a leading area business. The poll was conducted by a Pennsylvania based employee research and culture technology firm Energage. The firm anonymously polled more than 24,000 employees from over 116 LI employers on everything from pay and benefits to leadership and culture.

After analyzing all the results of the 116 companies that participated in the survey, Newsday and Energage selected 74 as top Long Island workplaces and Picciano & Scahill was among the winners noted.

Of the honor, Frank J. Scahill, the firm's Managing Partner says, *"This award is a tremendous accomplishment and an unbiased validation by employees about our company as a great place to work. We continue to be a firm that values and respects everyone within our firm and the clients we are privileged to serve."*

The poll's summary of findings showed that engaging cultures keep workers motivated, lead to stronger retention, higher productivity and better performance.

The employee survey gathered responses on 24 factors covering seven areas, including organizational health factors that measure how well employees are working together toward a common cause. These seven areas include: Alignment — where the company is headed, its values, cooperation; Effectiveness — doing things well, sharing different viewpoints, encouraging new ideas; Connection — employees feel appreciated, their work is meaningful; My Manager — cares about concerns, helps employees learn and grow; Employee engagement — motivation, retention and referral; Leader — confidence in company leadership; and The Basics — pay, benefits, flexibility, training, expectations.

Responders rank the statements on a 7-point scale ranging from "Strongly Disagree" to "Strongly Agree." Each statement has been tested to ensure it has a high correlation with how employees feel about their workplace, which is calculated by correlating the statement responses to employee engagement.
